

Binayak Poudel

Address: Raniban Street, Chhorepatan,
Pokhara, Kaski, Nepal

E-mail: binayakpoudel1233@gmail.com
Web: [LinkedIn Profile](#)

PROFILE

A recent graduate of the Bachelor of Science in Forestry at Tribhuvan University, Institute of Forestry, with a strong academic background and volunteering experience. Possess technical skills in Soil sampling and forest inventory, GIS, SPSS, RStudio, and MS Excel; fluent in English, Hindi, and Nepali; with strong analytical, communication, and teamwork abilities. Keen to pursue a career in Forestry and Soil Science, particularly in research on forest ecology, forest carbon dynamics, soil carbon cycling, dendroecology, forest management, eco-hydrology, forest ecosystem function analysis through ecological modeling techniques, and statistical data analysis using laboratory and remote sensing methods.

EDUCATION

- | | |
|-----------|--|
| 2021-2025 | Tribhuvan University, Nepal
Bachelor of Science (B.Sc.) in Forestry
Obtained Grade: 81.66% (WES Evaluation Grade: 3.76 ‘A’)
Thesis: <i>Assessing the Influence of Tree Vegetation Types and Environmental Variables on Forest Carbon Stock in Kaski District, Mid-Hills Region of Nepal</i> |
| 2015-2021 | Shree Chhorepatan Secondary School, Pokhara
+2 Science (NEB Board)
Subject: Physics (A+), Chemistry (B+), Biology (A), English (B+)

Secondary Education Examination
Subject: Science (A+), English (A+), Mathematics (A+), Computer (A+) |

ACADEMIC EXPERIENCE

Research Assistant, Mithila Wildlife Trust <i>Data Analyst</i>	(July – Oct) 2025
--	--------------------------

- Analysis of wildlife data through SPSS and Rstudio to identify trends of human-wildlife conflict in Madhesh Province;
- Provided data-driven solutions to support decision-making in preparing the “**Madhesh Province Human-Wildlife Co-existence Plan**”

Research Assistant Dissertation: ‘ <i>Estimation of total carbon stock in Schima-Castanopsis forest: a case study from Banpale Forest, Kaski</i> ’	2025
--	-------------

- Performed field inventory to collect tree structural variables such as diameter, height, crown cover
- Soil sample collection (up to 30 cm depth) by soil core method and analysis of soil properties (Bulk Density, soil pH, soil organic carbon);
- Performed data analysis using R to estimate the total carbon stock of the forest and its influencing factors

Research Assistant

(Nov 2025 – Jan 2026)

Dissertation: *‘Distribution, Nesting, Hibernation Sites, and Conservation Threats of Turtles in Janakpur Sub-metropolitan City, Nepal’*

- Field Data Collection, including taking pictures of the observed turtle species, GPS coordinates of its location, habitat in which it was observed and creation of its Spatial Distribution Map;
- Household Survey to understand the conservation threats to the turtles in Janakpur Sub-metropolitan City;
- Data Analysis of Household Survey, Key Informant Survey to identify and rank the major threats to turtles in their current observed location, along with prioritization of conservation methods for their protection.

VOLUNTEERING

Save Soil Campaign Volunteer | Pokhara, Nepal

(Apr 2022)

Participant

- Participated in the global “Save Soil” movement to raise awareness about soil degradation and sustainable land use
- Promoted policy awareness and encouraged citizens to support soil conservation initiatives.

PROFESSIONAL DEVELOPMENT

Gender in Academia: Developing Institute of Forestry as a Gender Friendly Institution (2022)

Participant

- Participated in a capacity-building fellowship focused on promoting gender equity and inclusivity within academic and institutional settings
- Engaged in workshops and strategic discussions aimed at making the Institute of Forestry more gender-friendly.

Youth in Policy and Governance (YPG): Training Camp – I | Pokhara (Jan 2024)

Participant

- Engaged in training focused on youth leadership, policy formulation, and governance principles.
- Developed skills in advocacy, policy analysis, and community engagement

National Economic Survey, 2025

(Apr – Jun) 2026

Supervisor

- Successfully guided the enumerator on how to collect data regarding the economic survey
- Acted as a coordinator when any problem arrived on the field during the survey
- Maintained a two-way communication connection with the enumerator and District Officer during the survey.

JOURNAL PUBLICATIONS (Drafts Available)

1. **Poudel, B.**, Bhattarai, S., Koirala, S., Chapagain, J., and Timilsina, S. Carbon Storage in Himalayan Community Forests Is Structure-Driven, Not Site-Driven (**under review in Discover Forest**).
2. Chapagain, J., **Poudel, B.**, Bhattarai, S., Koirala, S., and Timilsina, S. Forest Carbon Stock Quantification of Banpale Forest, Institute of Forestry, Kaski. (in preparation)

HONORS & AWARDS

2021-2025 Best Student in the Institute of Forestry (Batch: 2077-81)

2025 Pokhara Metropolitan City Research Grant (Nrs. 50,000)

ADDITIONAL SKILLS

Languages: English (**IELTS: 7.5** overall), Hindi (Fluent)

Microsoft Office: Proficient in Word, Excel, and PowerPoint

Skill: Proficiency in SPSS, Rstudio, QGIS

Others: Clear and concise communication; Leadership; Data Analysis
